Dr. Mr. Nagel:

Investigation of Odor Control Technologies – 1st Quarter 2016

This Update on Odor Control Technology Investigation is being submitted by Bridgeton Landfill, LLC (“Bridgeton Landfill”) pursuant to Paragraph 27(C) of the Second Amendment to the First Agreed Order.

Bridgeton Landfill continues to execute state of the art odor control methodologies in the effort to minimize the potential for any off-site emission of odor. This has included continued investigation of new odor control technologies. In the first quarter of 2016 Bridgeton Landfill investigated numerous alternatives for exposed soils treatment in addition to current best management practices. As of this investigation no additional technologies were discovered capable of improving upon existing best management practices.

Sincerely,

Derek Bourchard

Environmental Specialist
